Application for Exempted Fishing Permit; Correction**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments; correction.

SUMMARY: NMFS is correcting a notice that informed the public that the Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. The catch estimates provided in kilograms in Table 1 were incorrect. The table also erroneously included nudibranch in the list of federally managed species.

DATES: Comments must be received on or before October 1, 2020.

ADDRESSES: You may submit written comments by either of the following methods:

- *Email:* nmfs.gar.efp@noaa.gov. Include in the subject line "Comments on CFRF Beam Trawl Survey EFP."

SUPPLEMENTARY INFORMATION: On September 16, 2020, NMFS published a notice that informed the public that the Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit (EFP) application contains all of the required information and warrants further consideration. The catch estimates provided in kilograms in Table 1 were incorrect. The table also erroneously included nudibranch in the list of federally managed species. This correction does not change the scope or impact of the proposed EFP. This correction is necessary to provide interested parties the opportunity to comment on the application with correct and complete information.
